Dear Shareholders,

The legendary Winston Churchill had once commented, 'To improve is to change; To be perfect is to change often.' The world needs people who have the ability to change. In the context of organizations too, the prudent blend of knowledge and transformative success is the key for any business to grow in a sustainable way. In FY2015, ARIHANT will enter its 22nd year of operations. From a business perspective, we have learnt to focus on creating more sustainable business strategies with the inherent experience of dealing with crests and troughs of economic cycles.

The year 2014 was another year that our business had to face different problems and obstacles from economic, social, and political environments.

During the Financial Year 2014, the Indian economy grew by a paltry 4.9%. In fact, for the last 8 quarters beginning with Q1, FY2013, India has now grown by less than 5%. Naturally, this has affected real estate businesses. However, Your Company was able to achieve 10% growth in revenue over this period.

During the year, Your Company has entered into a one time settlement scheme with the HUDCO and made a full and final settlement for the long pending claim filed against the Company by HUDCO before the Debt Recovery Tribunal (DRT). Your Company has successfully settled a claim pending against it since 2004. However, this has significantly brought down the profits of the Company for the year under review.

During the year under review, your Company has completed and handed over our projects "ARIHANT PANACHE" comprising of 1,14,000 sq.ft. situated at Arumbakkam, Chennai, "Arihant Jashn" comprising of 36,381 sq.ft. situated at Egmore, Chennai and "VILLA VIVIANA – Phase 1" comprising of 3,05,382 sq.ft. situated at GST Road, Chennai during the year. A major highlight among these was the Company's project "ARIHANT PANACHE", which stands as a landmark of Arumbakkam and gained strong acceptance in the city of Chennai among the customers.

During the year our associate Company M/s. Escapade Real Estate Private Limited has entered into a Development Agreement, on revenue sharing basis with M/s. Ashiana Housing Limited, a Delhi based Real Estate Company for development of 'Senior Living Project' as well as 'Regular Group Housing Project', on 20 acres (approx.) of land with saleable area of 9.70 Lakhs sq.ft. at Sengundaram Village, Maraimalai Nagar, Off GST road, Chennai.

Going forward there are only better things to look ahead to. Consumer confidence is increasing. For the first time in 30

years, we have a stable government with a clear majority and mandate to provide good governance. The union budget presented on the 10th of July seems to bear this out with measures being announced to bring in more FDI, boost infrastructure and create more jobs, which certainly bodes well for the overall economic climate. With specific reference to our industry, the decision to introduce Real Estate Investment Trusts and allow FDI in urban construction projects is a welcome one.

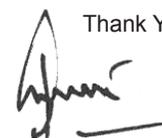

Residential real estate, for one, has been growing steadily in most markets in India. Between 2008 and 2012, despite the downturn in the markets due to the 2008 financial crisis, real estate in India remained stable, with 11 out of 15 Residex cities giving positive returns in that time frame. As for market direction in 2015, it is forecasted that the trend will be better than in 2014. This is due to clearer governmental policy and the stimulation of budget approval. All these represent good opportunity for the real estate business.

Today, India stands on the threshold of a new era, a new form of governance and values that inspire a 'country-first' approach. There is also a deep hope that an understanding of the country's economic levers will soon restore the economic momentum. Given the dynamic business environment in our country over the years, ARIHANT has been exposed to several micro and macro challenges. Regardless of this, we continued to build our business and achieve milestones rooted in ethics, transparency and the highest standards of corporate governance, with financial prudence and 'aggression with caution' being our philosophy.

Today, we truly believe that we are prepared for an active tomorrow as the aid by the tailwinds of a national governance framework resonates with our broader business model and keeps us committed to enhance long-term value for our stakeholders.

I would like to take this opportunity to express my sincere gratitude to our bankers, financial institutions, Chennai Metropolitan Development Authority and Corporation of Chennai and related departments of Govt. of Tamil Nadu for having supported us on all our efforts and endeavors and all those who work for or are associated with Arihant. We look forward to your continued support in the years ahead and wish you the very best.

Thank You

(Kamal Luma'wath)

Chairman and Managing Director

Annexure - 2 MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economic Review

The Financial Year 2014 observed many political and economic events all over the world that kept policy makers in most of the economies to focus on the path of development. However, growth prospects remained broadly moderate. The Indian economy showed signs of instability during the economic and political imbalances in the mid of the Financial Year 2014. The Gross Domestic Product (GDP) in India expanded 7.50 percent in the fourth quarter of 2014 over the same quarter of the previous year. GDP Annual Growth Rate in India averaged 5.83 percent from 1951 until 2014.

Industry Review

The Indian real estate sector is one of the most globally recognized sectors. In the country, it is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. The year gone by was more challenging due to high inflation, low GDP growth coupled with higher current account deficit. High interest rates further contributed in dampening the investment sentiments. The June 2014 quarter witnessed scrapping of 107 projects with investments worth Rs.1.1 trillion, followed by the September 2014 quarter - 210 projects with investments worth Rs.1.7 trillion and 135 projects with investments worth Rs.1.16 trillion in the December 2014 quarter.

Opportunities

India has always been a resilient market with great fundamentals for real estate and springing back positively. By virtue of the strong and increasing demand due to our large population base, this sector has grown continually and is expected to stay steady for long.

Industrial output, though lower this year, can be positively compared with most of the developed countries. IT/ITeS and industries are still expected to grow, creating employment opportunities and job stability. Rising disposable incomes and a growing middle class will also ensure robust housing demand and overall growth for real estate in India.

Moreover, Foreign Direct Investments in various sectors will continue to fuel the economy and open more doors. The newly proposed Land Bill as well as the Real Estate Regulatory Bill will bring about more transparency in the long term, hence making investments more attractive.

The above fundamentals automatically create demand for more housing and also tend to support infrastructure such

as retail, office, hospitality, health care, entertainment and lifestyle business.

Risks faced by Indian Real Estate Sector

While the management of your Company is confident of creating and exploiting the opportunities, it also finds the following challenges:

- **Liquidity Risk:** The time required for liquidity of project can vary depending on the quality and location of the property.
- **Regulatory Risk:** The rules, regulations and legalities, demonstration of frequent changes make real estate sector a cumbersome investment option in India.
- **Macro Economic Risks:** Interest rates, inflation and exchange rate risks are amongst the important macroeconomic indicators.
- **Other Risks:** Unanticipated delays in project approvals, Availability of accomplished and trained labour force, increased cost of manpower, rising cost of construction.

Outlook

There is an immense growth potential in this segment and one can cash in with limited or virtually no risk. Stringent laws including easing of mortgage enforcement in case of defaults will ultimately lead to an increase in the flow of capital to this sector hence creating further investment opportunities.

This sector is set to grow with an estimated demand of 710,000 residential units and 44 million square feet of commercial office space, across the top 7 markets in India keeping the prospects of investing in Indian real estate reasonably bright.

Due to uncertain and subdued economic environment during the last financial year, your Company's performance was also affected. However compared to overall subdued performance of the sector, your Company was able to sell perform well in FY2014.

Threats

Market instability and uncertainty may create a slight flutter in this industry. The Current economic outlook, though not dire, seems bleak and can hamper the industry growth. Soaring numbers of corruption allegation cases across various State Governments and government officials shows India in poor light and can create a cascading effect in attracting further investments.

Continuous change in policies will tend to affect investment as well. Moreover, restrictive laws governing Foreign Direct Investment into real estate make it difficult for foreign investors to look at India.

However, your Company poses a Brand reputation with higher recall and influences the buying decision of the customer and possesses a successful track record of quality execution of projects with contemporary architecture. Your Company follows a strong culture of corporate governance and ensures transparency and high levels of business ethics.
